Harvest Questionnaire - 2021 Sea Cucumber Quota Management Areas (QMA)

The DFO and the PSCHA are seeking on-grounds observations from harvesters on each of the QMAs. Harvesters are encouraged to fill out this questionnaire out and return it to D&D along with your validation slip or harvest charts. The questionnaires will be provided to DFO and will be considered in the management of the fishery. Any observations (both negative and positive) you are willing to provide will be helpful.

NORTH COAST	CENTRAL COAST	ECVI	15A West Redonda
4C North Porcher	7F Denny Island	11A Belize Inlet	15B East Redonda
5A West Banks	7N Finlayson North	11B Seymour Inlet	15C South Desolation
5D South Porcher	70 Finlayson South	11E Allison Harbour.	16A Sechelt Inlet
5I Grenville South	7P Milbanke Sound	12K Port Harvey	16C Texada Island
6E Princess Royal Ch	8B Calvert Island	12M Port Hardy	16D Lasqueti
6G Kitimat Arm	10A Smith Inlet	12N Goletas Channel	18A Gulf Islands South
6H Douglas Channel		120 Walker/Deserters	WCVI
6I Gribbell Island		13B N. Area 13	24A and 24B
6J Surf Inlet		13C E. Thurlow Island	25A and 25B
6K Laredo Channel			26A Kyuquot
			* *

1. The quota for this QMA should be: Higher Same Lower 2. Did you see any juvenile sea cucumbers (smaller than a pencil)? None Few Lot 3. At what depth would you say you were harvesting at on average? IF you have fished this QMA multiple times; 4. Have you noticed a decrease in density over time? Y N Size? Y N 5. Do you fish the same spots within the QMA year after year or do you try new spots NEW SPOTS SAME SPOTS Other comments/observations: Habitat? Sea cucumber size? Density? 1. The quota for this QMA should be: Higher Same Lower 2. Did you see any juvenile sea cucumbers (smaller than a pencil)? None Few Lot 3. At what depth would you say you were harvesting at on average? IF you have fished this QMA should be: Higher Same Lower 2. Did you see any juvenile sea cucumbers (smaller than a pencil)? None Few Lot 3.
